

Marist Water Polo Club

Do you have a burning Club Question?
Do you want to know how the club is run?
Do you know who is on the club committee?
Do you know who to go to if you have a club related problem?

In response to the parent survey, the committee would like to invite all club parents to a 'meet the committee' afternoon, and to also watch some great water polo. The committee will give some general information about the club and try to answer as many questions as possible. The meet may not allow us to answer all your questions in the one session but the time will allow you to relax, have a nibble and drink, with like parents and identify those that work behind the scenes at the club. Then come yell your lungs out at the below games.

Meet the committee.
